

## **Business/Non-Instructional Operations**

### **Hazardous Material in Schools**

#### **Green Cleaning Program**

Cleaning chemicals can negatively impact indoor air quality and cause harm to the occupants of a school building. Therefore, the purpose of this policy is to encourage and promote the principles of green cleaning throughout the Orange Public Schools, in compliance with applicable statutes. The Orange Board of Education encourages and supports efforts to implement green cleaning in all District schools. This shall result in the implementation of a green cleaning program in all District facilities no later than July 1, 2011.

It is the policy of the Orange Public Schools to achieve the maintenance of clean, safe, and healthy schools through the elimination of contaminants that affect children and adult health, performance and attendance and the implementation of cleaning processes and products that protect health without harming the environment.

The Orange Board of Education, by July 1, 2011, will reduce exposure of school building occupants to potentially hazardous chemical cleaning products. Only cleaning products that meet the guidelines or standards set by a national or international certification program approved by the Department of Administrative Services (DAS) in consultation with the Commissioner of Environmental Protection in order to minimize the potential harmful effects on human health and the environment can be used in the schools.

#### **Definitions**

**“Green Cleaning Program”** means the procurement and proper use of environmentally preferable cleaning products in school buildings and facilities.

**“Environmentally Preferable Cleaning Products”** means products or services that have a lesser or reduced effect on human health and the environment when compared with competing products or services that serve the same purpose. Such products must be approved by a Department of Administrative Services (DAS)-approved national or international certification program. This term includes, but is not limited to, general purpose cleaners, bathroom cleaners, glass and carpet cleaners, hand cleaners and soaps, and floor finishes and strippers. Excluded are any disinfectant, disinfecting cleaner, sanitizer or any other antimicrobial products regulated by the Federal Insecticide, Fungicide and Rodenticide Act. Also excluded are products for which no guidelines or environmental standard has been established by any national or international certification program approved by the Department of Administrative Services or which is outside the scope of or is otherwise excluded under guidelines or environmental standards established by such a national or international certification program.

## Notice Requirements

Annually, the Orange District will give to members of the school staff and to parents/guardians who request it, a written copy of this policy and the District's "Green Cleaning Statement." In addition, this written statement shall also include:

- a. the names and types of environmentally preferable cleaning products used in the schools and where in the buildings they are applied;
- b. the schedule for applying the products; and
- c. the name of the school administrator or designee whom the parent/guardian or student may contact for more information.

The notice shall also contain the following statement: ***"No parent, guardian, teacher, or staff member may bring into the school facility any consumer product which is intended to clean, deodorize, sanitize or disinfect."***

In addition, parents/guardians of any child who transfers during the school year, or a new staff member hired during the school year shall be notified of this green cleaning policy.

The Board will also make available on its website a copy of this green cleaning policy.

Biennially, the Orange Board will report to the Commissioner of Education on its green cleaning program, in a manner prescribed by the Commissioner.
