Food Service

Charging Policy

The goal of the food service program is to provide students with nutritious and healthy foods, through the District's food services program, that will support learning.

The Orange Board of Education (Board) has an agreement with the Connecticut State Department of Education to participate in one or more school Child Nutrition Programs and accepts full responsibility for adhering to the federal and state guidelines and regulations pertaining to these school Child Nutrition Programs. The Orange Board agrees to provide free or reduced priced meals to eligible elementary students enrolled in the District's schools. Applicants for such meals are responsible to pay for meals until the application for the free or reduced priced meals is completed and approved. All applications for free and reduced price lunch and any related information will be considered strictly confidential and not to be shared outside of the District's food services program. Meals are planned to meet the specified nutrient standards outlined by the United States Department of Agriculture for children based on their age or grade group.

Although not required by law, because of the District's participation in the Child Nutrition Programs, the Orange Board approves the establishment of a system to allow a student to charge a meal.

The Board realizes that funds from the nonprofit school food service account, according to federal regulations, cannot be used to cover the cost of charged meals that have not been paid.

Moreover, federal funds are intended to subsidize the meals of children and may not be used to subsidize meals for adults (teachers, staff and visitors). Adults are not allowed to charge meals and shall pay for such meals at the time of service or through pre-paid accounts.

Charging Policy

Charging is not encouraged by the Orange District but on those occasions that a student does not have money, they may choose one of the meals offered from that day's menu.

Definitions

1. No student shall be deprived a reimbursable meal due to forgotten or lost meal money. A note shall be given to the student to take home or mailed to the student's home to inform parents of the loan obligation. In situations in which a student is consistently without meal

money, the parent or guardian will be made aware of the opportunity to apply for free or reduced price meals.

2. The Orange District strongly discourages meal charges, but understands that an occasional emergency makes it necessary at the elementary level. The District/school policy is as follows:

All charges should be paid in 10 days.

Parents of students who charge will be notified after their child has received the meal and asked for prompt payment.

This policy shall be included in student/parent handbooks, on online portals that households use to access student accounts, placed on the District's website, on the website of each school, and published at the beginning of each school year at the time information is distributed regarding free and reduced price meals and again to the household the first time the policy is applied to a specific child.

This policy shall be provided to all school staff and/or school food authority staff responsible for its enforcement. In addition, school social workers, nurses, the homeless liaison, and other staff members assisting children in need or who may be contacted by families with unpaid meal charges also should be informed of this policy.

The District's school food authority shall maintain, as required, documentation of the methods used to communicate this policy to households and school or school food authority-level staff responsible for policy enforcement.
