

**Orange Board of Education
Building & Grounds Sub-Committee Meeting Minutes**

October 17, 2016

Present: Christian Young, Jeff Cap, Deanna Pucillo, Betty Hadlock, Chantelle Bunnell, Bill Kraut

Also Present: Dr. Vince Scarpetti, Mike Luzzi

Meeting called to order at 7:03 p.m.

Mike Luzzi reviewed ADA status of the elementary schools and existing funding marked for investing in ADA building improvements. The subcommittee unanimously approved a motion to recommend that the Bond Oversight Committee request the allocation of funding for handicap access including security concerns, and, for handicap bathroom accessibility at Turkey Hill School.

The subcommittee unanimously approved of and supports the THS PTO/Father's Club idea of paving the school's running track. The subcommittee requested they submit plans and pricing to Mike Luzzi and the Board for review.

The subcommittee reviewed and approved the Peck Place PTO's plan to provide for a new school sign replacing the old damaged one by the street-front. Approval for proceeding with the sign replacement was unanimous, conditioned upon the over-all cost being beneath the threshold value of donation that would otherwise require a full BOE vote to approve the donation. BOE assistance in replacing the sign posts for the new sign was approved, conditioned upon the value of the materials and labor being at or under \$1,500.

Mike Luzzi reviewed the results of the water tests for all four schools. Each test result was within the safe parameters established by the State.

Meeting adjourned at 7:26 pm
