

BOARD OF EDUCATION
Curriculum/Instruction/Technology
Monday, November 28, 2016

Present: Dr. Vince Scarpetti, Dr. Evelyn Russo, Kim Browe, Mara Saccente, Jeff Cap, Ken Ziman, Bill Kraut

Also present: Kai Byrd and Christian Young

1. The meeting was called to order at 8:06pm.

2. There was no public participation.

3. Class Link Sign-on System Initiative

Matt Ullring presented the new district single sign-on system. He explained that Class Link is a web portal that allows all staff and students to sign in to class link and automatically be signed into all district applications/programs.

This single sign-in is particularly helpful to our youngest students who may forget sign-in information; however, teachers also appreciate its features. Single-sign in allows teachers to access and work on files from home on the H drive. They can also edit Word documents online through Office 365 (free for education).

Implementing Class Link saved the more than \$7000 (over the previous system), and users are happy with the system.

Matt Ullring will explore creating board access to Class Link and an H drive for the Board and will examine the potential of using Single Sign-in for parent portal access to PowerSchool and RevTrack.

4. December PD Calendar

Dr. Russo shared the December PD calendar highlighting upcoming Nook Reading training and STEAM training at ACES.

Dr. Russo and Dr. Scarpetti are going to a curriculum boot camp and will work on curriculum writing on two Fridays. They will share more information soon.

Dr. Russo was also enthusiastic about Greg Tang night in January.

5. The meeting adjourned at 8:45pm.
