School Store

The school store runs throughout the school year selling school supplies as well as highlighting some of the holidays for gift giving. The store began as an opportunity for resource room students to reinforce their skills in making change, interacting with peers, and building responsibility.

Some of the school store profits are allocated to the school community based on the present needs of children and families.

We have seen a very positive attitude and interest in the store. We feel charity begins at home here at our school.
