

About Mrs. Lukianov

Mrs. Lukianov enjoys working with the Peck Place Community of students, teachers, parents, and staff as well as other Orange District families and staff members. She received a Bachelor of Arts degree in Child Development with Elementary Education Certification and a minor in music from Connecticut College and a Masters in Curriculum and Teaching from Teachers College, Columbia University. Her certification extends from pre-kindergarten through grade six. She has worked in the Orange School District since 2002 in numerous roles. These include second grade teacher and Curriculum Facilitator at Peck Place School, Math Coordinator and currently, Math/Science Specialist at Peck Place School. During this time she also served on many district committees and has continued her own learning through a multitude of courses, readings and webinars.

Prior to coming to Orange Mrs. Lukianov taught at The Greenwich Country Day School, in the Greenwich Public Schools, and in the Rye Neck Union Free School District, teaching first through third and fifth grades. During her time in the Greenwich Public Schools she received the Muriel Green Award for Excellence in Teaching Science, the Greenwich Distinguished Teacher Award, and was a CT State finalist for the Presidential Award for Excellence in Teaching Mathematics and Science. Mrs. Lukianov also spent two years at the Intrepid Museum in Manhattan, working in the education department. While there, she instructed hundreds of school groups; teaching them about the Intrepid Aircraft Carrier and the various related science concepts. As part of this position, she wrote several curriculum guides, including "The Plane Truth," which have been published by the Museum.

Mrs. Lukianov especially enjoys teaching mathematics to learners of all ages. She believes that all students deserve to learn, understand and appreciate mathematics. She is dedicated to making math learning innovative and meaningful.

"Mathematics is also a subject of enjoyment and excitement, which offers students opportunities for creative work and moments of enlightenment and joy."
