YOUTH CODING PROGRAM

Grades 3-6 Act#416600-B Monday March 6-April 17(No class 4/10) 4:00pm-5:00pm

Want to learn the analytical skills of the Future? This program is great for anyone looking to break into the world of coding! Through Scratch's simple visual interface, young people can learn to create digital stories, games, and animations in an easy manner. This class will give a general overview of Scratch and the various parts/programming blocks, while guiding students through various hands-on projects. This can help students gain foundational programming knowledge that they can later use to create their own games or build off of in the future. **All students must bring their own Chromebook/Laptop.**
