

Orange Health Department

Community Health Assessment Directions:

The Town of Orange Health Department has created a 2023-2024 Community Health Assessment for the purpose of improving and understanding the current health status of our community. It is important to identify our priorities for future planning, funding, and knowing our strengths and assets. We need to gather information in all aspects of our lives including economic, recreational, environmental and health and safety. By completing this assessment, our goal is to discover our community needs and issues to better our community. With the data collected we hope to become aware of needed improvements.

Please complete the Community Assessment by either:

- Hard Copy
- Scanning the QR code with your phone

- Survey Monkey link:
