

All About Ms. Anton

I knew shortly after graduating Fairfield University with a B.S. degree in Business that my true path and passion in life was to teach children. My next step was to enroll in the graduate program of Southern Connecticut State University for elementary teacher certification. I began my teaching career in Region 16 (Prospect and Beacon Falls). I taught in the gifted program of Region 16 for three years. I then moved on to teach fifth grade for two years and third grade for one year. After six years of teaching, I took a year leave to work as a corporate trainer in a small billing software company within the telecommunications industry.

Although I am grateful for my experience in the world of business and the computer savvy that resulted from my position, I returned to my true calling of teaching children when I was hired as an instructor of the gifted for the Town of Orange. I taught in the gifted program for five years in Orange and then returned to the classroom to teach fourth grade, my favorite teaching position yet!

I am also now cross-endorsed to teach English to speakers of other languages- a teaching field I have wanted to expand my experience in for quite some time. In closing, I consider myself most fortunate to work with the wonderful students, parents, and staff of Race Brook School! Outside of teaching, I enjoy practicing yoga, traveling to any worthwhile locations I have not yet visited, and dabbling in amateur photography.
